## IN MENSTRUAL CARE RECEPTACLES

### Evogen<sup>®</sup> No-Touch Combination Receptacle

No-touch disposal of menstrual care products PLUS personal disposal bag dispensing

#### Hands-Free Restrooms: The Next Step

Other than automatic toilet flushing, we challenge anyone to think of a more important advancement to the touch-free restroom. Let's face it – no one wants to touch the menstrual care disposal bin.

As a leader in providing menstrual care and sanitary disposal solutions in women's restrooms, HOSPECO takes the hands-free restroom to the ultimate level with the Evogen™ No-Touch Combination Receptacle for easy, safe, and sanitary disposal of used menstrual care products.

No-touch convenience means restrooms stay cleaner and are more pleasant to use and maintain.

- Patrons will appreciate having a hygienic disposal receptacle that opens with a simple wave of the hand, closes automatically, and seals in odors—and also dispenses personal disposal bags that conceal contents.
- Scensibles<sup>®</sup> disposable bags and liners help reduce or eliminate unpleasant odors while keeping offensive waste out of view.
- Maintenance staff can easily refill the receptacles with lightly scented, odor-inhibiting SecureFit360<sup>®</sup> liner bags for ultimate protection against contamination and odor.

#### Combat the Hazards of Conventional Disposal Methods

Why is sanitary disposal so important? Just because OSHA does not consider janitorial staff to have occupational exposure to bloodborne pathogens, let's face it—we all know better. Employers are responsible for their protection.

- Waste receptacles contain bloodied menstrual care products and are the primary source for odor in women's restrooms. Janitorial teams are asked to clean and disinfect these receptacles. Because of poor fitting wax liners, janitorial staff is potentially exposed to bloodborne pathogens and other bacteria.
- Most waste receptacles do not provide for product disposal bags designed to completely contain used product.
- No one likes to touch the lid to open the waste receptacle—patrons and janitorial staff alike!

The Evogen™ No-Touch Combination Receptacle offers a solution to all of these concerns.

**No-touch convenience means restrooms stay cleaner and are more pleasant to use and maintain.**

## Evogen® No-Touch Combination Waste Receptacle

### Easy and Sanitary for Patrons

- No more touching menstrual care disposal receptacles – Simply hold a hand over the lid and it lifts automatically and closes after waste is deposited.
- No need to touch the lid or the liner bag.
- Each unit includes a convenient built-in dispenser for single-use Scensibles® Personal Disposal Bags, which have a pleasant fresh fragrance and built-in antimicrobial agent that inhibits the growth of odor-causing bacteria – No more wrapping used products in toilet paper or worse, flushing the product down the toilet.

### Easy and Sanitary for Staff

- No need to touch the receptacle lid or receptacle contents.
- To change liner bag, simply hold a hand over the lid.
- After lid raises, hold a hand over it a second time to engage extra-long 60-second lift cycle.
- Remove old liner bag by the strap and replace it with a fresh one.
- Unit requires 4 (AA) batteries (not included), concealed inconspicuously at bottom of dispenser.
- Generous battery life: up to 1 year of operation (80,000 cycles)
- Dispenser slides onto a separate mounting bracket—assures easy removal for battery replacement and more thorough cleaning/disinfecting.

### SecureFit360® Poly Liner Bags: Handles Keep Bag in Place, Tie Closed

SecureFit360® poly liner bags are custom-designed with a unique strap that wraps around the bottom of the receptacle.

- The fitted liner prevents waste from contaminating the receptacle, keeping the receptacle cleaner to reduce odor and cleaning time.
- For removal, the strap becomes a handle to eliminate the need to reach into receptacles.
- Simply pull up on strap and tie closed for safe removal of the contained and concealed contents.

### Included with each receptacle:

- SBX50 refill
- Scensibles® Liner Sample Pack
